PURPOSE

The purpose of the program is to help small businesses that would otherwise not receive loans to obtain access to capital in order to create or retain substantial employment in Illinois or for the purpose of improving the competitiveness of the firm through modernization.

PROGRAM DESCRIPTION

Through the Participation Loan Program, the Department may purchase participation interests in loans extended to small businesses for business start-up, expansion and modernization. The Department may purchase participation interests in loans extended to small businesses up to 25 percent of the total amount of a new project, subject to a minimum of \$10,000 and a maximum \$750,000 participation. The primary lender will be responsible for the review and approval of the credit, collateral, security documentation, determination of eligibility and for the verification of the information in the application. The lender will also set the interest rate to the borrower.

ELIGIBILITY

Any qualified lender may apply to the Department for a loan participation on behalf of a small business operating in the State of Illinois. A small business includes any for-profit business in Illinois organized as a sole proprietorship, partnership, corporation, limited liability company, joint venture, association, or cooperative. Retail and service industry projects are generally ineligible under this program.

PROGRAM

Minority, Women and Disabled Participation Loan Program

ADMINISTERING AGENCY

Illinois Department of Commerce and Economic Opportunity (DCEO)
Business Finance Division (BFD)

PURPOSE

The Minority, Women and Disabled Participation Loan Program is a variation of the Participation Loan Program. This program is designed to enhance the lender's flexibility in providing economic development assistance to Illinois businesses owned and managed by persons who are minorities, women or have disabilities.

ELIGIBLE APPLICANTS

The definition of a minority, women or disabled business is a business which is at least 51 percent owned by one or more minority, women, or disabled persons and the management and daily operation of the business is controlled by one or more of the minority, women or disabled persons who own it. Minority shall mean a person who is a citizen or lawful permanent resident of the United States and who is African American, Hispanic, Asian American, American Indian or Alaskan Native. Disabled shall mean a person with a physical or mental impairment that substantially limits one or more of the major life activities of an individual.

FUNDING CRITERIA

The criteria for the Participation Loan Program also applies to the Minority, Women and Disabled Participation Loan Program. However, the Department may purchase up to a 50 percent participation interest in a loan extended to a minority, women or disabled-owned small business, subject to a minimum of \$10,000 and maximum of \$50,000.

APPLICATION INFORMATION

The application and documentation procedures for the Minority, Women and Disabled Participation Loan Program are identical to those for the Participation Loan Program except the Minority, Women and Disabled Participation section must be completed on the Applicant's Project Proposal for all owners and managers of the applicant business.

INTEREST RATE

The lender will set its rate according to its normal lending guidelines. The Department's interest rate will be Prime minus 1 1/2% for variable rate loans. Its rate for fixed and adjustable rate loans will be established at the time of loan commitment, and will provide inducements comparable to this program's variable rate pricing. In no event shall the Department's rate be less than three percent. The Department's subordination fee will be waived under this program.

TERM

The lender will set its terms according to its normal lending guidelines. The Department will match these terms, but typically will not participate for more than ten (10) years.

FEDERAL RESOURCES

PROGRAM

8(a) Business Development Program

ADMINISTERING AGENCY

U.S. Small Business Administration (SBA)

Office of Minority Small Business and Capital Ownership Development

PURPOSE

Foster business ownership and the competitive viability of firms owned by individuals who are socially and economically disadvantaged and to expand their participation in federal procurement of equipment, products and services.

PROGRAM DESCRIPTION

The 8(a) Business Development Program provides federal government contracts and other assistance to small companies owned by socially and economically disadvantaged persons. The U.S. Small Business Administration (SBA) acts as a prime contractor and enters into contracts with other federal departments and agencies, negotiating subcontracts with small companies in the 8(a) program. Generally, contracts with an anticipated award value, including options of less than \$5 million for North American Industry Classification System (NAICS) codes involving manufacturing and \$3 million for all other SIC codes, are awarded on a noncompetitive basis. Contracts greater than those amounts are awarded after competition among eligible 8(a) participants.

ELIGIBILITY

To participate in the 8(a) program, a business must be at least 51 percent unconditionally owned by either an individual(s) who is a socially and economically disadvantaged citizen of the United States or an economically disadvantaged Indian tribe, including an Alaskan native or Hawaiian organization.

Management and daily business operations must be controlled by an individual or individuals who have been identified as socially and economically disadvantaged and such individual(s) must be engaged in the daily management and operation of the business. The individual must have management or technical expertise directly related to the primary product or service (according to NAICS codes) of the business.

An applicant firm must qualify as a small business based on industry classification size standards and, except for tribe-owned concerns, must have been in business for two full years. Brokers, packagers and franchises are ineligible for 8(a) program participation.

Socially disadvantaged are individuals who have been subjected to racial or ethnic prejudice or cultural bias because of their identity as a member of a group without regard to their individual qualities. Without evidence to the contrary, the following individuals are presumed to be socially disadvantaged: African Americans, Native Americans, Hispanic Americans, Asian Pacific Americans, Subcontinent Asian Americans and members of other groups designated from time to

8(a) Business Development Program (continued)

time by the SBA. Individuals who are not members of the above-named groups must establish their social disadvantage on the basis of clear and convincing evidence.

ECONOMIC DISADVANTAGE

Economically disadvantaged individuals are socially disadvantaged individuals whose ability to compete in the free enterprise system has been impaired due to diminished capital and credit opportunities, as compared to others in the same or similar line of business and competitive market areas who are not socially disadvantaged.

In determining the degree of economic disadvantage, the SBA considers the financial condition of the business, its access to capital, credit and markets, as well as the applicant's personal financial worth and access to capital and credit.

An individual whose personal net worth exceeds \$250,000, excluding ownership interest in the applicant firm and equity in his or her personal residence, will not be considered economically disadvantaged for the purposes of program eligibility.

TERM OF PROGRAM PARTICIPATION

Every 8(a) certified business participates in the program for nine years from the date of approval participation.

ILLINOIS SMALL BUSINESSES 8(a) ORIENTATION SESSIONS

Applications for certification in the SBA Minority Small Business Section 8(a) Program are normally available by attending an 8(a) orientation (approximately 2 hours) held the first and third Wednesday of every month at 9:30 a.m.
